

## **Policy Code: 6325 Parking Areas for Students**

High school principals are authorized to assign individual student parking spaces or designate parking areas for students, subject to the rules and regulations promulgated by the principals in accordance with applicable law. Whenever individual spaces are designated or assigned, first priority will be given to individuals with physical disabilities. Principals will develop and promulgate priorities for obtaining parking spaces. Principals may provide for the registration of vehicles in any manner permitted by [G.S. 115C-46](#) and may remove cars parked in violations of rules as permitted by [G.S. 115C-46](#).

The school is under no obligation to provide parking for all students eligible to drive to school. The school may charge a fee to offset the cost of maintaining and monitoring the parking lot and administering the school's parking policies. Parking on school grounds is a privilege and not a right. Parking privileges may be revoked for violating parking rules or as a consequence for violating student behavior board policies, school standards or rules as provided in School Plan for Management of Student Behavior (policy 4302). Student cars parked on school property may be searched in accordance with board policy 4342, Investigations and Searches.

Exceptions to this policy or applicable regulations must be approved by the principal or his/her designee.
